INTRODUCTION

ITTEHAD

ALUMINIUM INDUSTRIES

INTRODUCTION

Ittehad Aluminium industries with its head office in Islamabad city and the factory located in Tarnol, Islamabad, started production of Aluminium Sections in 2003. Since then it has gradually ramped-up its production capabilities and networked to offices in Pakistan, Afghanistan and U.A.E for its well linkages with its customers to provide more than satisfactory services. We always focus on the standard and the quality of our products in accordance with European Standard Specification.

Striving for perfection is a never-ending process. The system we have in place nevertheless has now brought is very close to achieving this aim. The objective is to excel the client's expectations with our commitment, professionalism and quality of Aluminium Production.

The aim to Ittehad Aluminium Industries is the most efficient use of Aluminium Materials effective savings and above all high quality Aluminium product to serve domestic, government & semi-government sectors. By the grace of Allah we have become one of the pioneers in Aluminium Processing Industry.
